Product Review Process	<p>All products at Optio undergo a rigorous Product Review Process. This is to ensure the product is fit for purpose by meeting the specification needs of the target market.</p> <p>Optio have adopted systems and controls in place in order to manage the life cycle of the product. This includes ongoing product monitoring with the review of Management Information. The full details of Optio's product review process can be found in our Product Oversight policy.</p>
Fair Value Review	<p>In the process of conducting our Fair Value Assessment we have assessed the value of our product. Optio has taken into consideration data in respect of complaints, product performance, claims, price against quality, remuneration, service levels and the outputs of monitoring checks.</p> <p>Optio's Product Oversight Group met to discuss each product with the associated Management Information being carefully considered. The result of this is this product is deemed to provide fair value.</p>
Date of next Fair Value Assessment	The next Fair Value Assessment review will be completed within the next 12 months.
