

Subcontractor Default Insurance

Product Summary

Subcontractor Default Insurance

Subcontractor Default Insurance is a highly specialized product providing coverage to general contractors for direct and indirect costs of subcontractor defaults.

With SDI, the general contractor is in complete control of resolving the default without interference from the insurance company. Not only is this a significant operational advantage to the general contractor, but it also supports the obligations of meeting schedule commitments to the owner—an obvious advantage for both the owner and the general contractor.

We meet with every GC's key management team to understand their business processes and design the best possible program for their business.

Optio Underwriting Capacity

Optio is a Managing General Agency. We contract with the highest rated insurance companies/syndicates to underwrite on their behalf and provide the industry with a stable platform.

The Optio Underwriting insurance policy is issued by Lloyd's of London, the world's oldest recognized insurance organization. Each participant in the policy carries a Best Insurance Rating of 'A 15'. The long-term stability of this program is not based upon any one insurance company's changing underwriting appetite

If one participant on the Optio Underwriting wishes to exit the space, our London based team is always seeking out additional capacity.
